

LED Lighting for Education

LANTANA LED architectural light fixtures were designed explicitly for education buildings to offer optimal lighting for schools. These lights exceed Title 24 standards and provide superior illumination, improving educational outcomes. Furthermore, everyone in the classroom can enjoy soft, uniform light that is easy on the eyes. Illuminate the path to your academic success with LANTANA LED!

Improve the educational experience with dynamic lighting for increased focus

Improve safety by relocating maintenance away from busy learning environments

Elevate energy savings with sensor integration for daylight harvesting and occupancy controls.

- Up to 164.7 lumens per watt for maximum efficiency.
